THE LATEST REPORTS FROM THE MEDITERRA-NEAN FRONT SHOW THAT IN ALBANIA THE SLOW BUT STEADY PUSH BY THE GREEKS IS SHAPING INTO A DEFINITE THREAT ON VALONA, STATES A LONDON MESSAGE.

The Greek drive has swept up another large number of prisoners and huge quantities of war mtaerial. Some of the Greeks are fighting on skis.

. The strategy of General Metaxas, Prime Minister, seems to be taking the form of a double assault—the first by driving up the coast from Chimarra and the second in a push against Berat.

After a long period of silence the German Radio gathered itself vesterday and hurled such epithets as 'Playing with Fire," "Propaganda Trickery" and "Clumsy Propaganda."

In trying to refute the President's charge that Germany was seeking world domination the broadcast quoted a speech by Hitler in which he said. "Even if we have no gold we have the German working power with which we shall beat the capital world."

The broadcast complains tha this shows that Hitler had never planned world domination.

These vigorous attacks on the President showed plainly that the Germans are aware of the strength of his speech and that it has aroused world approval.

## FOOTBALL REVIEW SCOTLAND GAVE CHINA SHOCK OF LIVES

## Portugal Had Hard Luck: League Encounters 'preAT'

The best performance china (holders) in the semi-final of the Sunday Herald mitermational Charity Cup on Christmas Day Tipped to win the cup for yet another year the much-fancled Chinese eleven e given the shock of their lives when the dour Scots fought back a deficit of three goals at the interval to win by the odd goal in

was expected. In fact, in the opening stages, they gave, indications of a runaway victory but their defence under the constant rushes of the Scots forwards, became rattled in the second halt and allowed the Scots to assume the up-"per hand. All in all, Scotland were full value for their win and are congratulated on downing the allpowerful Chinese eleven.

#### PORTUGAL UNLUCKY

In the other semi-final POR-TUGAL put up a much better fight the intermediate line, and between the team and with the dashfur than was expected and were unlucky to be beaten by ENGLAND by the odd goal in five A great contributing factor to their defeat was the injury of A.V. GOSANO; the mainstay of the team, early in the game, for up till then the Portuguese were more than holding their own. They had to play with four forwards and this proved a great handicap against the steady defensive work of ROUGH-LEY and FRESHWATER.

England held a decided advantage in the forward where they combined better together. Li PAGE, HENDY and SAW forming a dangerous inside trio. What they ing from CAMPOS and GOMES.

EASTERN though they won by two clear goals, were not as superfor as the scorers would suggest, are as follows:-Giving their now usual first half spurt Eastern were, without doubt, the better side but in the second half they were hard put to keep their lead. Had the Scots' forwards shows, better understanding and more accuracy in their shooting they might have turned the tide when they were slowly having the better of the Chinese eleven.

NAYSMITH and FRASER, who seem to have lost their form earlier in the season, have shown great improvement lately. Their covering of each other was an object lesson in defence, both kicking a good length.

#### POOR DISPLAY

The belief that KOWLOON, on the home ground, may prove 10.20 R. L. S. Webb and W. Sharp. SOUTH CHINA'S "bogey" did not come true, the former gave a poor display and only the brilliant keeping of LAPSLEY, who saved a penalty from Lee Wzi-tong, prevented a heavier defeat.

## Governor On Care Of Needy Children

The suggestion that the Child Protection Society should be made the nucleus of a wider endeavout for the purpose of looking after the neglected and needy children of the Island was made" by the Governor, Sir Andrew Caldecott, at the annual general meeting of the Society held at Queen's House The Governor presided, and there was a large gathering uf members

Mr. A. E. Goonesinha in proposing the adoption of the report and accounts said that he agreed with some of the strong criticism that had been made against the system of chi'd labour in the

#### CRUELTY AND CRIME

Fifty per cent, of the child cases were from the Colombo District. The reason for that was that most of the children from the villages were brought and kept in Colombo homes. The criminal classes in the city today were drawn from those who had. run away from such homes and wandered about the streets and fell into evil company.

Since that Society was started there had been a check on that.

He said that the Society's Home at Maharagama, was doing exceedingly well owing to the care and attention paid to it, and mainly owing to the enterprise and energy of its Secretary, Mr

as pointed out in the report,

It was very difficult to get good domestic servants, and he thought In a good thing if the Society would start training those children for domestic service.

#### CO-ORDINATED SCHEME Mrs. (Dr.) M. Rutnam, in

seconding the adoption of the vote of thanks, said that when she visited the Maharagama Home she was struck by its possibilities and the wonderful start that had Deen made. The Women's Political Union

had made a study of that subject some years ago, and had thought it essential to establish in the Island a system of National Homes somewhat on the plan of the Barnardo Homes in England.

She commended that suggestion to the attention of the Ministers, Their Creches and Child Welfare Centres cared for the child only at a certain stage and then left him. They should have some scheme to link them all up in a scheme of National Orphanages.

Miss Cissy Cooray said that she wished to appeal to them to snow greater interest by visiting the Home for a wider membership and for more generous support.

The report and accounts were then adopted.

The same office-bearers as for last year were then re-elected with Lady Caldecott as President and Mr. P. J. Parsons as Hony. Secretary and Treasurer.

#### GOVERNOR'S ADVICE:

The Governor paid a tribute to the work of Mr. Parsons, and said that in his opinion. Mr. Parsons was the Society and it could not get on without him. He therefore proposed a vote of thanks to Mr. Parsons:

Sir John Tarbat seconded 1 and it was carried with acclama-

Certain rules of the coulety were then amended, after which Sir John Tarbat proposed a vote of thanks to the Governor and Lady Caldecott for the keen interest they had taken in the Society and for allowing that meeting to be held at Queen's House. ...

The vote of thanks was carried with acclamation.

# LEARNING ALL ABOUT AVIATION FROM GROUND UP

NEW YORK, Dec. 18-The Women Fliers of America are out to learn the business of aviation from the ground up-just in case. Not content with learning how to keep a plane up in the air, this group of organised feminine pilots has opened a ground school to study the why of it. The ground school, dealing with such technical subjects as mechanics and meteorology, has an enrolment of nearly 100 earnest students here, and branch chapters were expected to

Founded last April by Ruth Havi land and Miss Janis, the Women Fliers now boast a membership close to a thousand. Offices were opened in Hartford, Conn., Philadelphia, Washington, and New York. Some 5.000 letters of inquiry, praise and criticism attested to the interest they have aroused, Miss Janis said, adding that they had even had requests from Alaska and South America for information on women's aviation.

#### A Special Shave Cream—It's Not a Soap, Needs No Brush

EVERY DAY

Dailyshaving leaves many men's faces raw and sensitive. Yet, because of his business and social status, one out of every 7 men must shave every day.

To meet this condition, Williams. has now developed GLIDER - a speial cream for daily shavers. With no scap base, it's a complete departure from ordinary shave creams. No brush. No lather. Notsticky or greasy.

A superabundance of moisture is contained in this rich cream. It won't dry on your face. Applied with the fingers, it quickly softens each whisker. A protective layer is formed over which your razor glides. Off comes each hair at the base without scraping: Like a cold cream, Glider helps keep your skin smooth all day. Glider is the result of nearly 100 years' experience in making fine shaving preparations.

## Experiences In Chungking Air Raids

"A man who does not care for music and sits through a symphony concert is experiencing something very similar to sitting in an air raid shelter, for a period anything from two to seven hours, waiting for the "all clear."

Miss Emily Hahn thus described her experiences in Chungking air raids when addressing the weekly tiffin meeting of the Hongkong Rotary Club yesterday. Rotarian Dr. Arthur Woo presided.

"During the months of clear weather, though we did not have alarms every day, they made such a dent in the working day when they did come that as I look back on it I remember first of all those long hours of sitting."

Rotarian Prot. R. C. Robertson thanked the speaker. Visiting Rotarians were Rotar-

# Painful Blow To Japanese Hopes For Rapprochement

President Roosevelt's "fireside" talk in which he bitterly denounced the Axis Powers and appealed to the American nation to convert itself into a "great arsenal of Democracy" was interpreted by the TA KUNG PAO yesterday as a clear indication of the trend of the United States foreign policy in 1941, which embraces further positive aid to Britain and China. The report in the New York Herald-Tribune regarding the sale of 400 American planes to China eloquently testifies to this, the paper asserted.

Of particular significance in the President's speech, the paper said, was the part declaring that the Tripartite Alliance between Germany, Italy and Japan is aimed at menacing the United States. This amounted to a virtual refutation of the recent utterances of Mr. Yosuke Matsuoka and Admiral K. #### LONDON STOCK EXCHANGE

LONDON, Dec. 31 (Reuter) -On the Stock Exchange yesterday, although business was only of spasmodic character, the undertone was satisfactory.

Furthermore, President Roosevelt's speech and the terms of the new 2-1/2 per cent. war bonds and three per cent, savings bonds, indicating the Government's in tention to adhere to the cheap money policy, have created good impression.

Gift-edged holding were rather irregular but several industrial shares made headway Wall Street was firm.
